BOYS CURIOSITY

LEAVES HIM MAIMED

Opens Dynamite Cap with Pin and Both Thumbs and Fore Fingers Are Blown Off.

Owensville, Ind., Dec. 19.—Death came very near beating old Santa Claus to the home of Mr. and Mrs. Jesse Lucas living south of town when their son Elmer, 12 years old, found a dynamite cap and cause it to explode when he jabbed a pin into the metal cap containing the deadly explosive. The little fellow lost both thumbs and first fingers, besides receiving other lacerations of a severe nature.

The boy, his younger brother and a neighboring lad were playing in the orchard where they found a small paper containing the cap. The Lucas home is near the Big Four right of way and teamsters employed by the construction crew have been driving through the orchard for several months. The supposition is that the cap was lost by some member of the crew while passing through the orchard.

Neither of the boys knew what they had found. They showed the cap to Mrs. Lucas. She was unable to tell what it was and handed it back to the boys.

The boys continued to play with the cap until Elmer picked it up and examined it minutely with a pin. A second later there was a terrible explosion that shook the house. The room was filled with black smoke. Mrs. Lucas was grief stricken when she rushed into the room and found the boy rolling on the floor, his clothes saturated with blood. Fortunately the other two boys had just stepped out of the room when the explosion occurred.

A physician hastened to the home and dressed the injuries. The boy is reported to be resting nicely and unless blood poisoning develops he will have a fair chance to recover.

What the Boys and Girls

Can Do For Their Country.

I want them to build up character in themselves and in the community, to give to the country just so many men and women who will be incapable of meanness or dishonesty, who will look upon life as a sacred trust, given to them for honorable service to their fellow men and women. I would have them feel that, whether rich or poor, they are bound to be of use in their day and generation, and to be mindful of the Scripture saying that "no man liveth unto himself."

CHICAGO'S BREAD LINE

STILL HOLDS ITS OWN

Despite The Big Increase Shown In The Holiday Business.

Chicago, Dec. 27.—Despite the fact that the big retail stores report that more money is being spent this year for holiday goods than in any other previous year, 1,000 men stood in line last night in the biting wind to obtain a tin cup of coffee and a roll each.

It was the tenth night that Malcolm McDowell has had his coffee wagon out to feed the hungry unemployed. The results have shown that this charity is almost as badly needed as in the hard winter of 1907-08.

The municipal lodging house had over 400 lodgers last night, a number far in excess of the number of beds, and in excess of the number accommodated at this time in the winter after the panic three years ago.

Hogan's "flop," a four-story building where men may sleep on the bare floors for a nickel a night, had more than 1,300 guests last night.

PROTECT THEMSELVES

Posse And Three Robbers in Running Battle in Colorado.

Grand Junction, Col., Dec. 29.—After a running battle last night between a posse and three robbers, who had looted a general merchandise store at Clifton, six miles from here, one of the robbers was killed and the other two captured.

Four small boys who were hunting rabbits three miles south of Clifton discovered the robbers in a deserted dugout. Three of the boys covered the robbers with their small caliber rifles, while the fourth went for help. Before the officers arrived the three boys captives and forced them to carry a portion of the stolen goods for eight miles. When the posse overtook them each of the robbers seized a boy and used him as a shield to protect them from the fire of the pursuers, meanwhile keeping up a running fire from their revolvers.

W. H. Harrison, father of one of the three boys, and leader of the posse, took a desperate chance and shot one of the robbers, who was holding Harrison's son before him, through the head, killing him instantly. The other robbers then surrendered.

Government Experts Have Made A Great Discovery.

Chicago, Dec. 30.—Thomas C. Chamberlain, of the University of Chicago, in a magazine article just issued, declares that government experts have made discoveries by which all danger in mine disasters similar to the Cherry and Drakesboro mines are to be eliminated.

"Spraying tunnels and shafts of the mines with Douche Spelle dust and water frequently will not only make the coal dust of floors and walls almost proof against fire from sudden explosion, but will prevent the accumulation of gas that makes explosions possible."
